Subject: Status of the revised Draft RI Section 10 and the Draft Executive Summary

Good afternoon Kristine. As I reported to you last week, the LWG has not identified any show-stoppers with the revised draft Section 10, but we do have a few suggested edits that we feel should not be controversial to EPA. Gene and I are putting the final touches on a RLSO version of Sections 10.1 and 10.2 and should have it to you shortly. Do you have time tomorrow for a 30 to 60 minute phone call so we can walk through these and see if we can come to closure? My Tuesday is wide open.

In regards to the Executive Summary, again we have received initial feedback from the LWG members and Gene and I would like to set up some time later this week to discuss this with you. It will likely take several hours (3 to 4), so if you want to meet in Olympia that would be great. I am wide open Thursday and Friday. Let me know a date and time slot that work for you.

Thanks,

Jim McKenna
